

Yoran Essers

Full Stack Developer

Profile

Hello, my name is Yoran Essers. I am a Full Stack developer. I see myself as a developer who likes to learn new technologies / techniques and skills. I have a lot of knowledge in the field of website creation and design. I also have a lot of knowledge in the field of making apps and software. At the moment I am mainly studying the making of large web apps. I have had my own company called YEDevelopment for 1.5 years. Here I mainly do projects for others with friends. We do this mainly in the field of Web development and App development. In the software field I mainly have knowledge of the Java language.
